

September 10, 2026

Dear Potential Plum Creek Watershed Partnership Sponsor,

The Plum Creek Watershed Partnership is excited to announce our upcoming Root for Plum Creek Day, a community tree-planting day. We invite you to support our riparian restoration initiatives by participating as a volunteer or sponsoring the event with a donation.

Root for Plum Creek Day allows the Kyle community to connect with nature, make memories, and help prevent bacteria and nutrient pollution in Plum Creek.

Sponsoring this event connects your organization with the Kyle community and demonstrates your commitment to protecting Plum Creek's water quality. Donations will be used to purchase water, snacks, and T-shirts for the event. In recognition of your support, your organization will receive exposure and recognition based on your sponsorship level.

To be part of this community event, please respond by Tuesday, October 20, 2026, or register [here](#).
